Skating Rink in Full Swing

Cold Snappy Weather Gives Zest to Winter Pastimes at Skat- ing and Curling Rinks

The advent of real cold weather was hailed with enthusiasm by the devotees of Canada's national winter pastimes, skating and curling, and Coleman's splendid rink has resounded nightly this week with the stentorian voices of lusty skis and their brethren whose part in the game is to "scoop 'er up" while more youthful voices on the spacious skating rink evidence the delight of the younger patrons of the rink.

On Tuesday evening the curling games opened with the President vs. Vice-President competition, in which "green players" are initiated into the roarin' game and the skis try out their rinks. Some alone games were played on Tuesday night. Allan tying with Boulton in a score of 8 all. Roughed won from Sam Moones, 12-9. Kellock won from Rippon 9-6, while McBurney's rink was relegated to the cellar by Joe Emmerson with a score of 14-4.

There are fourteen rinks lined up at present, ensuring some keen competition in the various events.

Words of Appreciation

Mr. and Mrs. J. McCallum, missionaries from Trinidad, B. W. I., are leaving for the coast after a very pleasant holiday spent in Coleman. "One of the rocks with their rugged grandeur and majestic appearance. The weather has been rather cold, but old friendships have been renewed and warm, new friendships have formed. And the kindness shown by all has been far beyond our expectations," states Mr. McCallum, and "We take this opportunity of returning our grateful thanks to our many friends for their many tokens of love and kind hospitality which has made our stay in Coleman a real pleasure."

More British Families Coming West

Word has been received from Ottawa that some 500 additional British families will come to Canada to take up farms in the west under the "three-thousand family scheme" next spring, announces E. M. Johnston, Superintendent of the Land Settlement Board in Edmonton. The majority of these settlers will be placed on farms selected through the agency of the Board.

To Our Advertisers

To enable The Journal to be delivered promptly on Thursday afternoon through the mails and by the carrier boys, it is necessary that copy for advertisements should be in the office by Tuesday. Kindly bear this in mind and co-operate with us in publishing on time.—The Journal.

An Ontario Visitor

Mr. Neil L. MacKinnon, of Timmins, Ont., who has been looking after some claims of the Hollinger Gold Mining Company, of Enter County, California, has been visiting his brother at the Canadian Cafe. He left on Wednesday for Timmins, Ont., and was accompanied by his brother, D. A. MacKinnon, as far as Coleman, Alta., where they intend visiting for a couple of days.—Kimberley (B. C.) Press.

Elks Annual Dance

A novel idea has been adopted by the Coleman Elks for holding their annual dance in engaging the spacious dining room and rounds of the Grand Union Hotel for Friday, Dec. 30. Invitations are shortly to be issued, and there is a limited number to be issued, the committee urge that those who intend to take part notify the committee of their acceptance as early as possible after the receipt of the invitations. Mrs. Altmatt's high-class orchestra has been engaged for the occasion.

Asks Anglicans for More Church Support

Archdeacon Swanson Speaks Plainly to Congregation on Necessity of Self Support

Stressing the need of support being required to continue the missionary work of the Anglican church, Archdeacon Swanson of Lethbridge stated that the best way in which existing parishes can help is by raising additional money to relieve the diocese of having to make grants to pay local church expenses. In the case of Coleman and Blairmore, in order to cover expenses, an annual grant of \$650 is made, the balance being made up by the congregations. Bishop Sherman is making a strong drive this year to try and get all parishes to become self-supporting, in order that the grants at present being made may be used for purely missionary work.

It is not fair, the Archdeacon stated, that old established parishes which have sufficient people to raise the money to cover local expenses should be receiving grants from the missionary societies, and he appealed to the pride of the people to regard it as their duty to make it their personal business to remedy this condition. If every church family would give a little, there would be no difficulty in securing sufficient money to get along without a grant.

The Archdeacon's address was given at the meeting of the Rural Deacons of Macleod held here on Monday afternoon, at which there were in attendance clergy from the parishes in the deanery extending from Macleod to Coleman, of which the Rev. A. D. Currie is rural dean. At the close of the sessions a dinner was served to the visiting clergy by the ladies of the W. A.

Avoid Disappointment—Order Now

Old friends back east will appreciate a Christmas greeting, and to be sure of sending them a personal greeting card, order as early as possible, as it is far better to have them ready a week ahead of time than a day late. The Journal will be pleased to fill your order, having over a hundred samples to choose from.

A man is either paid for the quality of his work or the quality of his thought.

It's great life if you don't believe in everything you see, hear, think or know.

Town of Coleman

Owing to the shortage of work at the mines during the past three months, the town council has decided to extend the period of 10 per cent. discount allowance on town taxes up until and including December 12th, 1927.

JAMES FORD, Sec. Treas.

Christmas Shopping Season Is Here!

In the next seventeen days there is going to be all kinds of articles purchased for Christmas. This constitutes old custom increases with the years, and there is always much thought given to the question of what to buy. Suggestions by those who have gifts or commodities or merchandise for sale can be used with good effect at this season. Practically everybody buys presents of some kind, and the people are hungry for suggestions on Christmas buying. This is where information given through the columns of The Journal by local merchants can be used to splendid advantage.

TO THE PUBLIC: Make your Christmas shopping a pleasure by shopping early in the season. Merchants can serve you better and you are not hurried in making your choice.

Selling Out Business

It will come as a surprise to the public to read the announcement of Powell's jewelry store closing out sale this week. It means that right at a time when people are buying Christmas presents, this store is placing on sale just the articles needed for the gift season, and attention is directed to the page advert. In this issue, which contains only part of the wonderful bargains. You must visit the store to see the splendid lines which are being sold at extraordinary low prices.

Luvera's Store Has a Birthday

The following will be read with interest by old friends of Paul Luvera, a one time resident of Coleman. The story is from the Ansoorties (Wash.) American.

Of course everybody knows Luvera's store. It says "Luvera's" in big letters on the window and there's a guy in there named Paul who gives candy to kids and applesauce to everybody. He started in business five years ago on November 22, and with the help of dad and sister Janet, built up a wonderful business. Each year there is a celebration and everybody is invited, especially the kids.

This time Paul decided to have a birthday cake as well as toys and balloons for the kids.

It was a layer cake and R. J. Normand made a special tin 24 inches in diameter to bake it in. Everything went fine until the cake was delivered at Luvera's on Monday, but when Paul saw what a beauty it was he wanted a picture of it, so he took it to Brady's studio, next he raised one side so the top would show, and this is where the cake slipped and—cracked the frosting. Now everyone knows by this time that the cake wasn't heavy—it was just that Paul wanted to show it off better and thought it could stand on its own legs—and really it should—there were plenty of eggs in it. And that's why we can't see the picture of it. He had to send it back to the bakery prior to have its face made up again, and it didn't get done in time.

Well, stores and cakes are interesting, but always the man behind is more so. Paul tells us he was employed by the Hudson Bay Co. in Calgary, Canada, when his family came to Ansoorties to find a milder climate. His brother Sam was captain of the Salvation Army, which sent him here, and he liked it so well that he sent for the others. "It's just like southern Italy," they all said. So at last he gave up his position and came here to please them. When he left Calgary it was bitter cold, with four inches of snow on the ground, and when he reached Ansoorties, on the 8th of November, it was drizzling—one of our soft, warm

Masons Elect Officers

At the regular meeting of Summit Lodge A. F. & A. M. held last Thursday evening, the following were elected for the ensuing year: Worshipful master, T. Flynn; immediate past master, W. J. Burns; senior warden, W. L. Rippon; junior warden, R. F. Barnes; chaplain, Rev. A. D. Currie; treasurer, J. Emmerson; sec., Maurice W. Cooke; Tyler, A. F. Short. The remaining officers will be appointed at the joint installation to be held on Dec. 27 at Coleman, when Rocky Mountain and Sentinel Lodges of Blairmore and Hillcrest respectively will join in the ceremony, which will be attended by the grand master of Alberta, Rt. Wor. Bro. Cruikshank. Special committees have been appointed to make arrangements for this gathering.

United Church Notes

The date fixed for the Sunday School Christmas tree and entertainment is Dec. 22. This date should be kept open for this event. The groups and classes are already busy with the program.

Members, adherents and friends are reminded that the end of the year is upon us. The books are closed at the end of the month. The managers would be glad if all accounts against the congregation could be sent in at once. If those who usually give at the end of the year would send in the amount they wish to give it also would be appreciated. Those in arrears with their regular giving should also attend to this matter as soon as possible. To be able to start the new year with decks properly cleared will be an encouragement to all. Do not wait to be called upon.

On Christmas morning there will be a united gathering for both the Sunday School and the regular congregation. This will be a real Christmas service and should be the occasion of a family attendance.

Owing to a large number of stubs of tickets for the dance and car presentation (scheduled to take place in Fernie on Dec. 15) in aid of the K. of P., not arriving from outside points, it has been postponed till March 16.

Looks are often deceiving. No auto is over 26 years old.

"Just like southern Italy," Paul was so pleased that he never got over it—he likes us better the longer he knows us.

And he has had his thrills in our town. A day or two after his arrival he asked A. E. Phillips for work and was told to "join the army—we employ only girls in wartime." Later he carried away the first prize at a merchants' display—and then he got married and carried off the prize girl—and was serenaded three times. Ain't that nice? And was with him many happy returns of the day.

Women's Missionary Society

The Women's Missionary Society of St. Paul's United Church announces two special gatherings. On Thursday next Mrs. McKillop of Lethbridge, one of the pioneer women of southern Alberta, will address the members in the afternoon and also will address a public gathering in the church in the evening.

Mrs. McKillop came to Lethbridge district many years ago with her husband, who was one of the first Presbyterian ministers to begin work in the south, and has been closely identified with missionary effort ever since the work was started in this part of the country.

Church Bazaar for Saturday, Dec. 10.

St. Alban's Staging Christmas Bazaar in K. of P. Hall for Church Funds

"What would the churches do without the ladies?" is a question often asked, and more man must acknowledge that when it comes to raising money to meet the expenses they have the men beaten to a "frazzle."

Consequently bazaars, which drives and other forms of pleasurable amusement are resorted to and the public satisfies itself with feeling that it is giving something towards church work when it attends these functions and gets actually as much in return as if they were purchasing at a downtown store.

However, the point of this is that St. Alban's W. A. has prepared a fine showings of articles for sale at their bazaar on Saturday next from 3 to 6 p. m., besides which the younger members will add their seductive smiles in administering to the wants of those who patronize the stalls and the tea tables. For the children there will be a fair-pond where their curiosity as to what is in it may be satisfied at ten cents a dip.

Coleman Player Stars in Prairie Hockey League

While Coleman hockey fans are bawling the fact that there is no senior hockey this year, they are proud to note that some of the old players of the town are making good in some of the bigger leagues. Up at Saskatoon on Tuesday night Jimmy Evans scored the first goal in the opening game of the Prairie League schedule between the Saskatoon Sharks and the Moose Jaw Maroons and the telegraphic news despatch on the game stated that Evans was the pick of the forwards. As Jimmy was born and raised up in the mountains here, the home of many a youth who has struck out for the big open spaces, his career throughout the season will be followed with interest. Jimmy is playing with the Maroons.

Women's Institute Bridge

To add the funds of the local branch of the Women's Institute, Medaune W. L. Rippon, A. F. Short, A. Graham and C. O. Mottie entertained at a bridge party last Friday at the home of the latter, when twelve tables were in play, and a very enjoyable evening was spent. The honor went to Mrs. Whitelaw first, Mrs. J. C. Lang second, and the consolation prize to Miss Florence Cox. Dainty refreshments at the close of the play made a very happy termination to the evening.

In service is the best opportunity for growth.

Income Tax Prosecutions

Failure to Make Returns Brings Penalties to Thirteen People —More to Follow

Thirteen people of the towns in this district were recently fined \$25 and costs, or the alternative of 20 days in gaol. The convictions included five from Coleman, three from Bellevue three from Blairmore, one from Hillcrest and one from Cowley. The cases were handled by the R. C. M. P. at Blairmore under instructions from the Income Tax department and were tried before Magistrate J. W. Gresham at Blairmore.

The list of those fined includes farmers, miners and business men, and in connection with the securing of information on which the prosecutions are based, the payrolls of the mining companies are used to ascertain the incomes of employees, while in other cases the Income Tax department conducts its investigations. The mounted police act for the Federal government in making investigations.

Further prosecutions are likely follow, and negligent parties are advised to make their returns within the prescribed time for the current year, as paying a fine in addition to the tax is very costly.

U. S. Coal Men Cutting Prices

Attempt to Oust Alberta Product Seen in Manitoba Capital

American coal companies supplying Manitoba with soft coal varieties are cutting prices. It was disclosed today that two large fuel supply agents at U. S. points submitted bids at one dollar per ton under previously quoted prices, after the provincial government awarded contract for a supply of Alberta coal. The contract was not cancelled, however.

It has been said that the soft coal agencies from the States will reduce prices below anything Alberta mine operators may be able to quote in order to hold the Western Canadian market.

Just at present heavy supplies of American soft coal are coming in from the lake head. It goes as far west as Regina. More Alberta coal is being used, however, in this district than in other years, but it is a small percentage of the total soft coal burned there.

The mines here have been fairly busy during the past two weeks, and it's stated that they are likely to be fairly steady for some time.

The Women Who Did

A complicated traffic tangle was caused recently by a lady motorist who signalled that she was about to turn to the right and did so—London Opinion.

With Best Compliments

W. S. Gilbert once said of a certain man: "No one can have a higher opinion of X than I have—and I think he's a dirty little beast."—Outlook.

Then the Parking Age

A girl has hardly passed the ageing age nowadays before she reaches the parking age.—Boston Transcript.

Canada's Gold and what it means to You!

Never in the history of a country has any industry shown such phenomenal growth as that of the Canadian Mining Industry during the past few years.

Never before in the history of any country or industry have such unbelievably large profits been returned to the individual investors.

More important still: NEVER BEFORE HAS THERE BEEN A SITUATION SUCH AS THIS WHERE A MAN WITH ONLY LIMITED CAPITAL MAY INVEST A MODERATE AMOUNT WITH SUCH EXCEPTIONAL OPPORTUNITY FOR LARGE RETURNS FROM HIS INVESTMENT!

There is no reason for not knowing what is going on! Upon receipt of a letter or postal card, the company named below will cheerfully furnish reliable information to anyone interested in learning full details of one of the most outstanding mining developments of recent years in the entire North country.

THE NORTH AMERICAN DEVELOPMENT LIMITED
CANADIAN PACIFIC BUILDING
TORONTO, ONTARIO

On To The North!

Whatever misgivings the people of Canada had regarding the building of the Hudson Bay Railway and the creation of a profitable port on the Bay are being rapidly dispelled as week after week announcement is made of conditions and discoveries and new developments in the vast area to be opened and served by the new route.

In times past pessimistic opinions were held and views expressed relative to Canada's future and the doubtful success of many Canadian enterprises. The grain section of Canada would never, according to official reports to the British Government, be fit for agricultural settlement. Later, the construction of the C.P.R. was described as the apex of folly—it would not pay for axle grease. Still later, it was emphatically declared that wheat could not be successfully grown west of Moose Jaw. There was a time when the idea of making Montreal an ocean port was openly ridiculed, the world being asked to consider the impracticability of creating an ocean port hundreds of miles from the sea up a river frozen solid for many months of the year.

But Western Canada has become the granary of the Empire and has made Canada the greatest wheat exporting country in the world; hundreds of millions of bushels are raised west of Moose Jaw; the C.P.R. is the greatest transportation system under one management in the world today; Montreal stands second only to New York as the chief port of the North American continent.

And now that construction of the Hudson Bay Railway is being cheerfully proceeded with, enthusiasm and businesslike methods having replaced former lukewarmness and decisions based on guesswork, the old opposition is dying away as step by step former fallacies and misconceptions are removed. So great has been the progress made in this direction that all political parties are outgrown in support of and pledged to the project, thus removing it from the arena of partisan controversy.

The railway has been completed to within approximately 150 miles of Churchill, and contracts have been let for this additional mileage. Work on the creation of an up-to-date, fully equipped port has commenced. The continuous aerial survey of the straits now in progress has already brought the information, surprising to many doubting Thomases, that both Bay and Sirintha have remained free from ice for a much longer period than was formerly believed to be the case.

Opponents of the Bay project always contended that navigation would be so perilous, and, as a consequence, insurance rates on boats and cargoes so high as to be prohibitive, that no shipping company would undertake to establish a service on such a route. But already a responsible steamship company has opened negotiations with the Government for the establishment of a line of vessels operating in and out of Churchill, while insurance authorities have announced that there is no reason why the rates of insurance to be charged should be unduly high or a deterrent to the success of the route.

As if these things were not in themselves sufficient to justify the expenditure on the road to the Bay, there comes official announcement of the completion of arrangements between the Dominion Government, the Manitoba Government, and the wealthy Whitney interests of New York for the building of a branch line of railway from The Pas on the H.B. line to the Fin Ron mining area which will be a feeder to the Hudson Bay Railway and provide an enormous and paying traffic.

This contract further involves the development of a great power plant at White Mud Falls near the Hudson Bay Railway, the construction of a proper transmission line to the Fin Ron, and the establishment of great pulp mills, all of which will provide a huge volume of freight quite apart from the through traffic and from Churchill. This subsidiary expenditure is estimated to reach no less than fifty to sixty millions of dollars, and provides for extensive northern development which could not possibly be undertaken without the Hudson Bay Railway.

And it is confidently predicted that this is only a beginning and that with the completion of the Hudson Bay Railway, and this new branch line feeder to it, there will follow a new era of exploration and prospecting that will result in uncovering as yet unknown sources of great mineral wealth. Canada in the future has suffered the disadvantage of lacking depth commensurate with its great breadth. Development to the north in the next decade or two gives rich promise of removing that disadvantage.

Autos For the Army

Motor Vehicles May Take the Place Of Horses In United States Army

Even in the army old dobbin may lose caste and the motor vehicle take its place under the plans of the United States War Department. Instructions have been issued to the army to determine to what extent automobile power can be substituted for animals in military transportation.

Several points are in favor of automotive transportation, according to army officers, especially in overseas movements, where animals are diffi-

cult to secure. The study will be made practically every branch of the army. It will be commensurate with similar investigations in other armies, it is indicated.

Will Improve Radio Reception

Forecast Made By Chief Of Canadian Delegation To Conference

Commander Edwards who has just returned from the radio conference at Washington forecasts improvement in radio reception in Canada.

There were discussions with the federal commission of the United States for the establishment of a band of waves below 200 meters in which the power would be limited to 50 watts. No high power stations would be allowed in on this band and, it would take care of the large number of low powered local stations which will function without any interference.

Curate—Will thou have this woman to—
Bride—Here, who are you calling "this woman?"

According to a survey made over a long period of years by Dr. J. P. Minard, popular trees are most frequently struck by lightning.

Minard's Liniment for Neuralgia.

Nitrogen From The Air

Scientists Must Decide Whether Atmosphere Will Be Exhausted

Britain now leads the world in the economic production of nitrogen from the air. Whether we can take too much nitrogen from the air, and be faced with the problem of an exhausted atmosphere is a point which chemists must decide. If it were humanly possible to disturb the balance, presumably the oxygen would gain ground at expense of the nitrogen; and, since oxygen is the incendiary and invigorator, animal life might blaze up into new phases of terrific energy that would keep pace with the vegetation that had been stimulated by the extracted nitrogen.

TRIALS OF INDIGESTION

Errors About This Trouble Into

Which People Fall
Many people so far misunderstand the digestive system as to treat it like a machine, neglecting it until it works chaotically, then trying to get it into work again by the use of purgatives. The stomach needs help at all times, but a study of the process of digestion will show that purgatives, as commonly taken, are seldom necessary and often harmful.

To safeguard your digestion the diet must be controlled. Over-eating is always harmful, but one must assimilate enough food to supply the needs of the blood. Remember, the blood has to carry nourishment to all parts of the body and fuel for its energy. Letters come from the blood comes weak and fails to do its work, indigestion arises. Therefore the sure remedy for indigestion is to bring the blood into action. If you suffer from any form of indigestion choose your diet carefully and take wholesome nourishment. Above all, start building up your blood by taking a course of Dr. Williams' Pink Pills. Then under the influence of the new blood supply your digestive system will reorganize naturally, your appetite improve and your food will do you good. So begin to improve your digestion by trying to take Dr. Williams' Pink Pills now.

You can get these pills from your druggist or by mail from The Dr. Williams' Medicine Co., Rockville, Md.

Woman Colonel Dead

Attained Rank During Cuban War Of Independence

Juana Arías Verdecia, the only woman who attained the rank of colonel in the Cuban war of independence, is dead at the age of 116, at her home on the Yvero farm, near Bayamo, Orient, according to a despatch from that town.

During the ten years of war, Colonel Verdecia rendered valuable services in the field, leading her troops in person and more than once engaging in hand-to-hand conflict with Spaniards.

Asthma Overcome. The triumph over asthma has assuredly come. Dr. J. D. Kellie's Asthma Remedy has proved the most positive blessing the victim of asthmatic attacks has ever known. Letters received from thousands who have tried it form a testimonial which leaves no room for doubt that here is a real road to relief. Get it today from your dealer.

It is needless for a man to have an alk in life if he has no ammunition to back it up.

DOAN'S KIDNEY PILLS
FOR ALL KIDNEY DISORDERS
BROOKLYN, N. Y.
4087 THE PRO

Ancient Custom Broken

Egyptian Woman Stood Unveiled in Presence Of King

In all the many dynasties which have rolled over Egypt only one woman of the Nile has ever stood unveiled in the presence of a Pharaoh and lived to tell the tale.

The one woman who has had this experience had it the other day when King Fuad of Egypt was the guest of the President of the French Republic. Madame Hackel, wife of an Egyptian newspaper editor, dared to do this thing. She was dressed by a Paris dressmaker, and though it might have been the strangest of fashions, well dressed that nerve her to this act of daring, there was something also in being connected with the liberty of the press.

Thus, little noticed by grave historians, great changes come to pass. Madame Hackel may come to be remembered as one of the liberators of the women of the East from the bondage of the veil that has bound them for centuries. Queen Vahit refused to come unveiling into the presence of King Abasaurus and his Court; Madame Hackel has asserted the right of women to enter the presence of the King unveiled and look the monarch in the face.

Good Law and Sound Logic

Motorists Have No Right But To Regard Rights Of Others

That others than motorists have rights on the highways seems to have been forgotten by many car drivers. It is too often presumed that pedestrians and children have not as much right to the highway as any automobile, but the sentence to three years in Kingston penitentiary by Judge Russell of a motorist who killed a three-year-old boy may serve to remind reckless speeders that their rights are a long way from being paramount. His lordship in passing sentence intimated plainly such rights of the car driver has in the following words: "The great and insistent loss must be taught and taught again, until it is thoroughly understood and heeded by all that the whole right of an automobile has on the highway is the right to pass over it carefully and with due regard to the right of others." This is good law and sound logic.

Britain Owns Curious Lake

Has Natural Deposit Of Soda and Depth Is Unknown

The British Empire possesses another curious and valuable lake besides the pitch lake of Trinidad. It is a vast natural deposit of soda situated at Magadi in Kenya Colony, east of Lake Victoria Nyanza. This lake has an area of at least fifty square miles and an unknown depth. It is so concentrated as to contain crystals as well as their "mother liquor" and it looks in consequence as if it were frozen. No sooner has excavated taken place than more soda is deposited from saturated water from many springs. Thus the supply seems inexhaustible and a railway has been built capably to serve it, refineries have been established, and something approaching 200,000 tons of soda are produced there annually.

Miller's Worm Powders will not only expel worms from the system, but will induce healthy conditions of the system under which worms can no longer thrive. Worms keep a child in a condition of restlessness and pain and there can be no comfort for the little one until the cause of suffering is removed. These can be safely used by the use of these powders, which are very effective.

Increase In Crime In The U.S.

Steadily Increasing Number Of In-Mates In Prisons and Reformatories

It is indeed a sad commentary on current conditions that crime in all parts of the United States is growing with such rapidity. This situation is reflected in the steadily increasing number of inmates in prisons and reformatories. In a recent survey by the United States Census Bureau, covering penal institutions in thirty-one states, it was found that between 1923 and 1926 the number of prisoners committed to the courts increased 23.3 per cent.—Thrift Magazine.

When Holloway's Cure Remedy is applied to a corn it kills the roots and the callous comes out without injury to the flesh.

A Moving Target

A Killed Highlander, playing the bagpipes, marched up and down the street alongside a theatre queue.

"Why do they always walk up and down when they're playing?" asked a man on a passing bus.
"Can it harder to 't' 'em that way?" said the conductor.

Wise is the man who does of his own free will that which he would otherwise shortly be compelled to do.

Makes Good Publicity Agent

Recent Speech Made By Prince Arrouses Interest Of English Business Men

The extraordinary effect of the speech in praise of Canada and its opportunities made recently by the Prince of Wales before the Canada Club in London, is spreading all over the country. Immediately after the speech Canada House and the Canadian Pacific offices in London were deluged with inquiries from business men anxious to secure further information and a flood of enquiries has flowed in from Bristol, Liverpool and Glasgow as well as from London.

There has been a rush of inquiries from men interested in commerce and industry who are planning to go to Canada to investigate personally the prospects, and also from hundreds of intending immigrants. The officials of Canada House express astonishment at the result of the speech and regard the Prince of Wales as the finest publicity agent that Canada has ever had.

One Drop of "Putnam's"—Corns Stop Aching

Isn't it wonderful—Just a drop or two of Putnam's on any sore corn and out comes all the pain. After a few applications the corn shrivels up and drops off. No scar, no pain, no itching from tight shoes any more. You can dance or walk in comfort. Be sure you use only Putnam's Corn Remedy. Satisfaction guaranteed. Sold by druggists everywhere. Refuse a substitute for Putnam's—it's the best.

Recipes For This Week

(By Betty Barclay)

LEMON SAUCE

- 2 tablespoons butter.
 - 2 tablespoons flour.
 - 1/4 teaspoon salt.
 - 1/4 teaspoon paprika.
 - 1 1/2 cups water or meat stock.
 - 3 tablespoons lemon juice.
 - 1 tablespoon finely chopped parsley.
- Melt butter, add flour, salt and paprika and when well mixed add water or meat stock. Bring to boiling point, stirring constantly, add lemon juice and parsley and serve.

CREOLE CAKE

- 1 1/2 cups of prepared cake flour, sifted.
 - 3 teaspoons of baking powder.
 - 1/2 teaspoon of salt.
 - 1/2 teaspoon of cinnamon.
 - 2 eggs well beaten.
 - 1 cup of sugar.
 - 2 tablespoons of shortening, melted.
 - 1/2 cup of chocolate, melted.
 - 1/2 cup of milk.
- Gradually beat the sugar into the eggs; add the melted shortening and flour and stir, measured, and sifted again with the baking powder, salt and cinnamon. Beat in a pan 7 x 11 inches about 15 or 20 minutes, in an oven at 250 degrees Fahrenheit.

When the cake is cool cover it with this frosting:
1/4 cup of confectioner's sugar which has been sifted.
3 tablespoons of cocoa.
1/4 cup of milk.
A scant half teaspoon of vanilla.
Mix the sugar and cocoa together, then stir in the two liquids, mixing it all thoroughly.

The Race Prejudice

World Is in Need Of A Greater Sense Of Brotherhood

A joke that appeared in Punch illustrates race prejudice.
"Who is 'im'?" asks one workman of another, pointing to a stranger across the street.
"I don't know," was the answer.
"I'm ain't none of us. 'Eave a brick at 'im'!"

And the bricks have been flying through the air. Some of them have hit the heads of men, and there have been war and confusion. What a senseless thing it is for men to treat their fellows in such a way! Much of the world's strife is begun as groundless. "He does not belong" and "We do not know him"—these often constitute sufficient reasons for condemning a man. We all need a greater sense of brotherhood and an increasing desire to understand our fellow men.

Find Bonnet 250 Years Old

An ancient bonnet of woven material was discovered by workmen who were carrying out repairs on the roof of St. John's Church, Perth. How it came to be in its strange hiding place is a mystery. The bonnet, which is estimated to be 250 years old, is in a badly rotted condition.

Canadian Output Of Bait

The production of bait in Canada in 1926 was 262,547 tons having a value of \$1,480,145, an increase of 12 per cent. on the production of 1925.

Minard's Liniment for Colds.

PIMPLES OVER FACE AND HANDS

Irritation Caused Scratching. Healed by Cuticura.

"I had pimples all over my face and hands. The pimples were red and swollen, and the irritation caused me to scratch. Scratching caused eruptions, and I could not rest or sleep either day or night. I used all the worst remedies but got no relief. I read an advertisement for Cuticura Soap and Ointment and sent for a sample. After using it three days I got relief so purchased more, and within a month I was completely healed." (Signed) Miss Adelaide Thomas, 43 Holmer Ave., Kitchener, Ont.

Use Cuticura Soap daily for the toilet, assisted by Cuticura Ointment when required, and have a clear, fresh complexion, free from pimples and blackheads.

Building New Type Plane

Will Carry Two Persons and 100 Pounds Of Baggage

An entirely new type of civil airplane, costing only \$3,000, is being made at Peterboro, Ont., according to Capt. H. P. Ayres, who was in Ottawa conferring with officials of the air board.

Captain Ayres says the new craft has been designed with a view to solving the housing problem of machines and providing a "foot-proof" plane which the private individual can operate with a maximum of safety.

The new ship which carries two persons together with 100 pounds of baggage, has a cruising capacity of seven hours and can maintain a speed of 110 miles an hour.

Wise mothers who know the virtues of Miller's Worm Expeller will always have it at hand because it proves its value.

Taking No Chances

Fear of contracting smallpox caused Juana Lopez, believed to be 113 years old, to present herself to the medical authorities at the Municipal Palace, Mexico City, for vaccination. She was accompanied by one of her "boys," Eulogio Beristain, 89, who was also vaccinated. A crowd gathered and was surprised to see the woman rapidly descend the steep stairs of the Palace without any apparent exertion.

Automobiles In Alberta

Another record has been established by Alberta in its automobile figures. To the end of October license issued this year were 70,300 as compared with 64,125 for the whole of the preceding year.

The BABY

No mother in this enlightened age would give her baby something she did not know was perfectly harmless, especially when a few drops of plain Castoria will rid a baby's stomach and end almost any little ill. Prevalence and fever, too; it seems no more than to give a baby a little of this. That's the beauty of Castoria; its gentle action on the stomach just what is needed. It does all that castor oil might accomplish, without shock to the system. Without the evil taste. It's delicious! Being purely vegetable, you can give it as often as there's a sign of colic, constipation, diarrhea, or need to add sound, natural sleep.

Just one warning; it is genuine Fletcher's Castoria. Physicians recommend. Other preparations may be just as free from the evil taste. It's coming to test them! Besides, the book care and feeding of babies the goes with Fletcher's Castoria is worth its weight in gold.

HAS EXERCISED OPTION ON FIN FLON PROPERTY

Toronto.—The Mining Corporation of Canada Limited announces that Harry Payne Whitney has exercised in full his option to purchase the Flon properties. The corporation retained a 10 per cent. interest, and also acquiring a 10 per cent. interest in all claims and interests separately owned by the Whitney interests in the Flon Flon district.

Payment in full of the purchase money has been made cash, the corporation receiving, \$854,000. The original option provided for payment of much the greater part of the purchase price in bonds secured upon the property, maturing over a period of years, but not bearing interest until Sept. 1, 1923. Subsequently the corporation realized in these bonds being altered and a cash purchase price being agreed upon. From the sum received the corporation, in accordance with the terms of the original option is contributing slightly less than \$75,000 towards the expense incurred in connection with the experimental work carried on at Denver and on the properties themselves, which expense totalled about \$1,000,000.

Montreal.—An official announcement issued from the headquarters of the Canadian National Railways here, said that the contracts for the construction of the Flon Flon branch line in Northern Manitoba have been let to the Dominion Construction Company, Ltd., and Tomlinson Company, of Toronto and Winnipeg.

Report Shows

Irak Prosperous

Industry is Flourishing and Labor Troubles Non-Existent

Jerusalem.—While the past year was anything but a prosperous one in Palestine, Syria or Egypt, the economic condition of Irak during 1926 and the first half of 1927 was good.

Recently, the Permanent Mandates Commission of the League of Nations took note of the report which was submitted to it by the High Commissioner for Irak, Sir Henry Dobbs, for the year 1926, in which it was pointed out that the country had progressed satisfactorily.

The revenue of the Government has exceeded the estimates by over 5 per cent. Labor trouble was practically non-existent while industry was flourishing.

Reports from Baghdad show that this state of affairs has continued unabated.

Was Missing Sixteen Years

Woman Mourned As Victim Of Titanic Disaster

Cochville, Leicestershire, England.—Mourned for nearly 16 years as a victim of the Titanic disaster, Mrs. Robertson walked into her old home at this place a day or two ago and nearly frightened her aged mother to death.

When she left Cochville she had booked passage on the Titanic, but at the last minute changed her plans. About her mysterious disappearance the long interval, during which her father and four brothers and sisters died, she would say little. She explained that she had married and done war work in Germany and had been captured by the Germans.

The Titanic, on her maiden voyage from Southampton to New York in April, 1912, struck an iceberg off Newfoundland and foundered. More than 1,500 persons perished in the disaster.

Large Orange Shipment

Vancouver.—Importation of Japanese oranges through Vancouver reached a new high mark when three steamers arrived from the Orient recently carrying a total of 500,000 boxes for distribution in British Columbia and every other province in the Dominion.

Jewelry Found In Cells

Burlington.—Stolen jewelry has been located hidden in the cells at the county jail ordered by Fred Dyck and Donald Berkin, who were sentenced to two years for the theft of several rings. The men had refused to tell the whereabouts of the missing rings.

Reproduce Royal Christmas Cards

London.—Reproductions of the Royal Christmas cards prepared for the King and Queen by the London Royal Household are again to be available this year to the members of the public by permission of the King and Queen, the Prince of Wales, Princess Mary and the Duke and Duchess of York.

W. N. U. 1710

Casualties Heavy In Ukraine Revolution

Has Cost 5,000 Lives In Three Months Says Report

New York.—Suppression of a revolt in the Ukraine at a cost of 5,000 lives during three months of bitter fighting is reported in a special copy-furnished dispatch from Kiev, Russia, to the New York Times.

The dispatch telling of massacres and street clashes in towns along the Dnieper, which forms the Russian-Rumanian boundary line, confirms in large measure recent dispatches to the Associated Press from Bucharest giving an account of fighting in the Ukraine reported by the Rumanian newspaper Diminea.

Soviet reinforcements, which have arrived in the Ukraine in the last two weeks turned the tide of the revolutionary movement and after a series of clashes in various towns, the revolt was crushed out in a bloody disaster for the revolutionaries.

Soviet officials have made denial of any extensive revolt in the Ukraine, specifically denying any feeling at Kamenez-Podolsk, but the sound of prolonged firing beyond the Ukrainian hills can be heard daily from the Rumanian side of the frontier, the dispatch says.

Montreal Merchants

Outwit Burglars

Leave No Money In Store After Closing Hours

Montreal.—Thieves operating in Montreal have, for the past few months, apparently acquired a taste for repeating their exploits in the same establishments. But the harassed shopkeepers have arranged in their own way means of making the work of the burglars as unprofitable as possible.

Over last week-end thieves entered a branch of a chain grocery company and carried the safe away. That was their fourth visit in two months. The management, however, had one of the employees carry the money home, so that the strong-arm-men received nothing but a lot of trouble for their pains. On the previous three visits the robbers secured \$500 and three safes.

Changes In British Cabinet Inevitable

Rumor Is Causing Much Speculating By London Newspapers

London.—A cabinet shuffle is inevitable early in the coming year and already newspapers are speculating on the changes. It appears probable that Lord Curzon, Mr. Birkenhead, first lord of the Admiralty, and Col. Ashley will be elevated to the House of Lords, and that their position in the cabinet will be filled by younger men.

Progressive members of the Conservative party are anxious for better representation in the government, and are very much dissatisfied with the present administration. This feeling is resulting in considerable dissension within the party, which may be settled before the next election comes in sight.

Cost Of Canada's Army

Expenditures For Year Total \$10,402,651 According To Report

Ottawa.—Military expenditures during the year 1926-27 necessitated expenditures totalling \$10,402,651 according to the annual report of the Department of National Defence. This figure does not include \$599,154 for general air services. In the year 1917-18 the grand total of military service expenditures was \$320,744,270 and for the next two years the expenditures were in excess of \$300,000,000.

Flying operations by the Royal Canadian Air Force during the year showed a total of 5,229 hours of flying time, covering service flying, forest protection, aerial photography and fishery protection.

The active military strength on March 31, 1927, was placed at 3,193 ranks, other than commissioned officers.

Has Approved Agreement

Ottawa.—The Government has approved by order-in-council the agreement between the Canadian National Railways and the City of Vancouver, announced Hon. C. A. Dunning, Minister of Railways and Canals, one of the provisions in the agreement calls for the building of a new hotel in Vancouver at a future date.

Must Pay License Fee

Moore, Jan.—Dr. H. Stanforth Clouston, San Francisco, will have to pay a transient traders' license fee according to a decision reached by city council here. The doctor is giving a series of lectures in this city on matters pertaining to health.

Commuter Lost Fight Against New Ruling

Was Advised To Submit To Border Immigration Law

Buffalo, N.Y.—The first attempt of an alien to fight the border immigration ruling was lost when Judge Hazel, in district court, dismissed an application for a temporary injunction to restrain immigration officers from enforcing the ruling.

The injunction was sought on behalf of James Kemp, of Niagara Falls, Ontario, who is owner of a business establishment in Niagara Falls, N.Y. Judge Hazel, commenting on the action, advised Kemp to submit to arrest for illegal entry across the Niagara river and then to apply for a writ of habeas corpus in order that his action may be brought before the district court.

The new immigration ruling which became effective December 1, provides among other things, that Canadian nationals, who commute to this country, must have visas and pay a head tax of \$25.

SOVIET RUSSIA PROPOSES THAT NATIONS DISARM

Geneva.—Soviet Russia has challenged the entire world to disarm.

The Russian delegation to the disarmament commission of the League of Nations offered to destroy her land, sea and air forces, providing other nations would do the same.

The stupendous proposal left the other delegates bewildered and gapping for an answer, but with the impression that Russia had won the peace fabric of Europe. However, the general impression, except possibly among the Russians, is that total disarmament is an idealistic dream for the present at least. Nevertheless, there is everywhere a disposition to give the Soviet leaders full credit for their readiness to wipe out armaments.

That the Russians themselves realize their plan to lay down all arms and make their manufacture impracticable is too idealistic for the present, at least, was shown in the opinion of many by the fact that they voiced their willingness to negotiate a plea for disarmament for the reduction of armament if their radical project proved too revolutionary, and that they did not insist upon immediate consideration in detail of their own program. Such consideration was adjourned until the next session of the commission early in 1928.

Furthermore, although contending that complete disarmament is the best guarantee of security, the Russians, in a spirit of conciliation agreed to send an observer to the special commission on security. It will tackle the problem of how best to increase guarantees of security in order that the nations of the world may be more willing to cut down armaments when the international conference is convened, probably some time next year.

World's Chess Champion Buenos Aires.—Alexander Alekhine, Russian chess-master, won the world's chess championship when Jose R. Capablanca, the defender since 1921, resigned the thirty-fourth game of the series without resigning play, adjourned after 81 moves. The score was six to three victories. The 25 drawn games did not count.

A Ten Thousand Dollar Two-Year Old

The international aspect of the Royal Winter Fair at Toronto was emphasized strongly this year by the exhibition of a large shipment of champion stallions from England, Scotland, France and Belgium.

The horses, including Clydesdales, Percherons, Suffolks and Belgians, were brought to Canada in October by W. J. McCallum, of Brampton, Ontario, and Regina, Sask. The shipment arrived on board the Canadian Pacific freighters Dunbrigg and Bowditch, and represented what is considered the finest assignment of horses ever to cross the Atlantic.

A notable stallion with the group is "Lord Willington," photographed above, a Clydesdale champion many times over and considered one of the finest bred over-seas. While the shipment proper, including over 100 horses, will be sold by Mr. McCallum throughout the west this winter, "Lord Willington" will be taken back to Scotland by the owner to be used for breeding purposes. This horse was purchased by Mr. McCallum as a prize exceeding \$10,000. It was the only two-year-old winning double championships in Scotland this year, being champion at the Royal Show, near Perth, Wales, and champion at the Kilmarnock Show.

Mr. McCallum's opinion for the horse industry in Canada, has prompted him to spend about four months each year touring the four countries mentioned and making a personal selection of the stallions available for export.

Refused Decorations

COL. T. E. LAWRENCE

who lived with the Arabs with a price on his head, organized them to drive the Turks out of Syria, during the war and made Emir Faisal King of Iraq, and then refused the decorations offered to him by King George according to recent disclosures. He is said to feel that the Arabs didn't get a square deal because they fought under him with the understanding that they would be allowed to keep Damascus and Syria after the war.

Exhibition Dates Set

Announcement Made At Annual Session Of International Association

Chicago.—The Canadian National Exhibition will be held at Toronto, August 25 to September 8, next year, according to an announcement made by the International Association of Fairs and Exhibitions in annual session here.

Other dates for Canadian exhibitions decided upon for associations affiliated with the International Association were announced as follows:

Calgary exhibition and stampede, Calgary, July 9 to 14.

Central Canada exhibition (Ottawa), August 21 to 26.

Edmonton exhibition, Edmonton, July 16 to 21.

British Columbia provincial exhibition, New Westminster, B.C., September 2 to 8.

Saskatchewan provincial exhibition, Regina, July 20 to August 4.

Law Serves Its Purpose

Sacramento.—The new state law requiring a three-day notice before a marriage license can be issued has reduced the number of marriages in California by 20 per cent. During the first month it was in effect, the registration brought a decrease of 800, indicating that many elements had been frustrated.

World's Chess Champion

Buenos Aires.—Alexander Alekhine, Russian chess-master, won the world's chess championship when Jose R. Capablanca, the defender since 1921, resigned the thirty-fourth game of the series without resigning play, adjourned after 81 moves. The score was six to three victories. The 25 drawn games did not count.

Hazing Barred From Agricultural College

Hon. J. S. Martin Gives Ruling Affecting Guelph School

Toronto.—Hazing or initiation practices at the Ontario Agricultural College, Guelph, have been banned by Hon. J. S. Martin, Minister of Agriculture.

The minister's action was prompted by the recent hazing of Edward Reddies, young English student at the institution who was imprisoned in a pig cage and "naked" off in front of a crowd in the streets of the city a short time ago.

Mr. Martin takes the ground that hazing is, in effect, little short of mob law in a mild form and states that students who participate in any future affair of that kind be immediately expelled from the college.

Serious Floods Near London

People In Low Lying Country Forced To Leave Homes

London.—Serious floods in many places, especially in the low country to the West of London, following a heavy 24-hour rainfall which accompanied a black fog over the city. The rainfall exceeded half of the average for the whole of November.

The little river Brent burst its banks, flooding scores of houses near Greenford. Police entered the district quickly to awaken the inhabitants, who had to leave their beds hastily to save what they could.

Miles of the district were under water, and the roads were impassable. The local electric plants were flooded, cutting off light and increasing the difficulties of the area.

Would Abandon His Title

Japanese Prince Holds Himself Responsible For Bank Failure

Tokyo.—Prince Iwano Matsuhata, holding himself responsible for the failure of the Iwano bank, called the Peers Bank, because its stockholders and directors numbered most of the Japanese peers, has requested permission to abandon the title.

Prince Iwano was managing director of the bank, has decided to sell his remaining property, donating the proceeds to the settlement of the bank's affairs. The Prince, who was a multi-millionaire before the bank's failure last April, is now living in a small house on the outskirts of Tokyo.

Canadian Doctors In London

Will Examine Immigrants From England Before They Sail

London.—Twenty doctors from Canada have arrived here for the inspection of potential migrants from this side of the Atlantic to the Dominion under the pre-commissioned medical examination scheme which has been placed in operation by the Canadian department of public health.

It is hoped that by testing the fitness of immigrants before they sail, the possibility of their rejection on arrival in Canada will be practically eliminated.

OATS TROPHY AGAIN WON BY HERMAN TRELLE

Chicago.—Canada retained the oats sweepstakes for the best oats grown on the North American continent through Herman Trelle, Wembley, Alberta, at the International Grain and Hay Show here, L. E. Patterson, Victor, Montana, taking the reserve championship.

Mr. Trelle kept the oat crown which he won in 1924 with a fine sample of Victory oats weighing 48.6 pounds to the bushel, United States measure. Canada has won the oats championship six times, and Montana twice.

By winning today the Canadian exhibition sweepstakes, Mr. Peterson, from taking the trophy as his own property for a third win. Next year Mr. Trelle will have an opportunity of lifting the trophy.

All the winning seed grain samples were placed in a gold painted slide case under lock and key in gold painted boxes. The blue ribbons denoting championship, taken by the exhibit, were laid on top of the grain. Above the plants is a big map with golden crowns showing that the field pen champion ship went to Saskatchewan and the oats sweepstakes to Alberta.

George Avery, Kelso, the only Saskatchewan entry in early season trials, placed second, taking the tenth prize. L. E. Patterson, Victor, Montana, won and Maurice Larcombe, Birtle, Man., was eleventh and Samuel Larcombe, Birtle, Man., fourteenth.

Shipping Milk To Orient Valico, Cal.—Americans living in the Orient have had milk from the States for some time. A dairy company here is shipping several hundred gallons of milk to Shanghai and Singapore, using the same methods of refrigeration employed by fruit exporters.

BIG MAJORITY IN BY-ELECTION FOR HON. GEO. SPENCE

Gull Lake.—When the last returns had been received by Returning Officer Richard A. Harris, Hon. George Spence, recently named Minister of Railways in the Saskatchewan cabinet, had a substantial majority over his opponent, Charles Frederick Colburn, Independent Progressive.

In the provincial by-election for Maple Creek constituency, With 37 polls reporting out of 52, Mr. Spence had a total of 3,724 to Mr. Colburn's 236, or a majority of 632. Some time will elapse before the final figures are known, as some of the polls cannot be reached by telephone or telegraph, and travelling is extremely difficult owing to the condition of the roads.

Undoubtedly Progressives here expressed themselves satisfied with the result although some were disappointed at the small vote.

From present indications Mr. Spence will take Mr. Colburn's deposit.

Workers for both parties were busy from the minute the polls opened until closing time, but in a number of cases cars were stalled making it difficult to get the people of the polling booths on time.

Early returns indicated the election of Mr. Spence by a substantial majority, and the issue was never in doubt after the first ten returns had been received. It is estimated that about one-seventh of the vote turned out to cast ballots today. There are approximately 14,000 names on the voters' lists.

Hungarian Prince

Inherits Fortune

is Serving Penitentiary Term For Forging French Francs

Budapest, Hungary.—The recent death in Czechoslovakia of Prince Alfred of Windisch-Gratz, leaves a vast fortune in the hands of Prince Ludwig of Windisch-Gratz, who is serving a penitentiary sentence for forging French francs. Prince Ludwig, who was virtually penniless by becoming heir to his uncle's fortune some more will be well supplied with funds.

It is believed that he will be pardoned and in the meantime expects to receive permission to attend his uncle's funeral.

Prince Alfred was former President of the Austrian upper house and a former Premier of Austria-Hungary. He belonged to one of the ancient feudal houses of the old Austria-Hungarian empire.

Norwegian Scientists

Going To Antarctic

Will Make Study Of Continent Near South Pole

London.—A party of Norwegian scientists and explorers have left Norway for Cape Town, whence they will start on board the Antarctic steamer *Norvegia* to explore the South Antarctic continent. They will explore the Zandvick Land round the coast to the 120th degree West, following the route of the Bellingshausen expedition of 1821.

Afterwards they will go to the South Shetland Islands to study the flora and fauna. The scientific leader of the expedition will be Professor Hottel and the captain of the *Norvegia* will be Captain Hornvold.

Several naturalists will be included in the company.

Bangal Swept By Plague

Calcutta, India.—A cholera epidemic is sweeping Bangal.

Three thousand seven hundred and three cases, with 2,139 deaths, have been reported from all parts of the province, with the exception of Calcutta, for the week ending November 19.

It is estimated here that if the epidemic follows the ordinary course, it will increase 50 per cent. in December.

Vancouver Is Recommended

Vancouver.—Officials of the Imperial Aeronautical Association of Japan have been called by T. Miyata, air attaché of the Japanese embassy at Washington, recommending Vancouver as the terminus of the Japan-Pacific flight which will be attempted next year.

Shipping Milk To Orient

Valico, Cal.—Americans living in the Orient have had milk from the States for some time. A dairy company here is shipping several hundred gallons of milk to Shanghai and Singapore, using the same methods of refrigeration employed by fruit exporters.

THE COLEMAN JOURNAL

2ND AVE., E., COLEMAN, ALBERTA. H. T. Halliwell, Editor and Publisher

THURSDAY, DECEMBER 8, 1927

Murderous Competition

According to a news report emanating from Winnipeg, American coal dealers are talking of cutting the price one dollar per ton under previously quoted prices, in an effort to oust Alberta coal from the market in that city. If this report is true, then it is high time that the Canadian government took steps to prevent what is undoubtedly unfair competition and which is very detrimental to the Canadian coal industry and indirectly other lines of commerce and trade, for if the Alberta coal industry is jeopardised to the extent that not only the capital invested in Canadian mining properties but the employment of miners is reduced still further than under present conditions, then the ill effects will reach far further than the coal industry itself. It is not a provincial problem only as far as Alberta is concerned, but a national problem and one which should have the serious consideration of all business interests of this province. Here is a matter in which action by combined boards of trade might have some effect in impressing on the government need for immediate action, to prevent Canada being made the dumping ground for the surplus output of American mines to the injury of Canadian workmen.

You have to cultivate good habits. The bad ones grow wild.

Girls Will Play Hockey

As Coleman is not to have a senior hockey team this winter owing to the departure of a number of its star players of former seasons for other fields of adventure, the Shamrocks, by which name the ladies team is known, will make an effort to capture the provincial championship, the trophy of which is the Messenger cup. By a series of dances the girls are trying to raise sufficient money to enable them to play with other teams in the province and earn the right to play in the provincial championship games. Their efforts will be commended by all who like to see Coleman represented in winter sports of all kinds, and by the series of dances which the girls are giving it is hoped to raise sufficient money to at least pay part of their expenses during the season.

Let's hope that the ambition of the girls will be achieved and give them all the local support that is possible.

Calgary citizens have re-elected Mayor Fred Osborne. The ladies were very much in favor of his re-election, which shows what a mighty fine asset it is to possess good looks and a pleasing personality.

The skating rink is a boon to Coleman—give it your support if you or your children wish to enjoy the recreation it affords. Don't let the directors carry all the burden of managing and financing too!

Keen Interest In The New Ford Car

Coleman Garage Will Shortly Have
New Car on Display Says
A. M. Morrison

The new Ford car went on display Friday, December 2. Known as Model "A", it replaces the Model "T" which for nineteen years made automotive history, and comprises a line of six passenger models supplemented by light delivery and truck models.

Pleasing appearance, a wide range of bright color combination, great power, high speed, flexibility, road-

ability, unusual getaway, economic operation and rugged, simplified construction are cited as outstanding features of the long-awaited car. Design and construction hitherto peculiar to high-priced machines are said to be incorporated in the new product.

The lines of the new Ford are distinctive. The wheelbase is 108 1/2 inches, and the lower suspension and deeply-crowned, gracefully contoured one-piece fenders are pleasing to the eye and suggest speed and stability. Bodies are of all steel construction and a new type of one-piece, steel spoke wheel employing a drop-centre tire and eliminating the old-fashioned rim and rim clamps is employed. A

selective sliding gear transmission is used with a multiple dry disc clutch, and the rear axle is of the three quarter floating type with spiral bevel gears permanently adjusted and noiseless. Full torque drive which relieves springs of all driving strain is featured, and four-wheel, mechanically actuated, internal expanding brakes have been incorporated in the new product. Throughout the design of the car ease and quietness of operation, great strength and accessibility of all parts have been kept in mind. According to Ford officials the purpose back of the new car is to provide a small car which will incorporate all light car advantages with the features of comfort, speed

and safety heretofore peculiar to heavy and expensive machines. This, they confidently assert, has been accomplished in the new Model "A" Ford. The four cylinder power plant of the new Ford develops 40 horse power at 2200 revolutions. This is practically double the power of its predecessor, but this great increase in power has been effected without sacrifice of economy and it is claimed that the new car will afford thirty or more miles to the gallon of gasoline. This remarkable increase in power is effected through use of a larger cylinder bore, by static and dynamic balancing of flywheel and crankshaft, and by the use of light reciprocating part. The new motor is

practically vibrationless owing to the careful balancing of these parts. The Model "A" motor incorporates a number of unusual features of design which have been born of years of experiment. Most of these features make for long life, simplify service and more economical maintenance. Lubrication is a combination of pump and splash systems and cooling combines thermo syphon and pump circulation of water. The water pump is so designed that it comes into use only when the motor is turning at a fair rate of speed, and overcooling at low speeds or in cold weather is thus avoided. The motor itself is essentially a low speed motor, de-

The NEW CAR

INTRODUCING A FINE CAR IN THE LIGHT CAR FIELD

THIS entirely new car surpasses the accepted standards of light car accomplishment; sweeps aside all boundaries of price class; establishes a new standard of acceleration, speed, power and smoothness. Hereafter the following characteristics have been combined only in expensive cars.

Speed—better than a mile a minute.

Acceleration—5 to 25 miles per hour in high gear in 8 1/4 seconds.

Endurance—this car will travel all day at 50 miles per hour without strain on motor or chassis.

Riding comfort—flexible springs and four hydraulic shock absorbers permit comfortable travel at high speed over the roughest road.

Roadability—this car's low center of gravity holds it snugly to the road on an unbanked turn even at high speed.

Power—in deep, loose sand with the front wheels cramped and from a dead stop, the car will turn in a tight circle, forward or reverse, without effort.

Effective braking—the instant response of mechanical, four-wheel brakes with dual control ensures positive braking for any emergency.

Positive steering control—A relaxed hand on the steering wheel will hold the car steady in loose sand and over bumpy roads. Turning radius 17 ft.

Economy—30 miles per gallon of gasoline, plus the well known economics of Ford car maintenance.

Appearance—coach work of pleasing proportions, tastefully finished in an extensive range of color combinations of durable satin lacquer.

Quietness—Vibration in the engine is practically negligible. New final drive is exceptionally quiet. Double-ply anti-squeak tape, asphaltum treated fabric and hardwood blocks between body and frame minimize body noises.

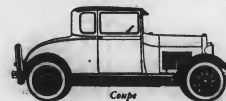

Tudor Sedan

Fordor Sedan

Sport Coupe

Coupe

Phaeton

Roadster

Engine—At 2200 revolutions per minute the new four cylinder engine develops 40 H. P. This revolution speed is low for such power and sets an entirely new standard for light car speed and acceleration, enduring quality and operating economy.

Engine lubrication—Combination of pump, splash and gravity feed thoroughly lubricates all frictional surfaces regardless of road grades.

Cooling system—Combination water pump and Ford thermo-syphon system doubly insures ample radiation. Engine warms up quickly but will not overheat.

Electrical system—The new Ford designed distributor is placed on top of engine permitting direct connection to spark plugs by means of short bronze bands. The single coil is protected by a waterproof case. Co-incidental lock on ignition circuit is theft proof. The powerful starting motor and dependable generator are both of Ford design.

Clutch and transmission—Patterned after the famous Lincoln, these units give an operating ease never before found in moderate priced cars. The nine plate multiple dry disc clutch and the selective transmission are designed to make shifting of gears remarkably easy and simple. Getaway, unexcelled by any car made today, is just one of the many advantages. Three speeds forward and one reverse. All gears are made of heat-treated chrome alloy steel. The only light car in which transmission shafts are mounted on ball and roller bearings.

Rear Axle—The axle shaft itself carries no weight as the 1/2 floating principle places the weight of the car on the axle housing. Flexible roller bearings minimize rear wheel friction. A Torque Tube drive and spiral bevel gear are additional features.

Springs—Transverse semi-elliptic design. Relieved of all driving strain, they perform the sole function of cushioning road shocks. The transverse type of spring helps to prevent a large amount of frame distortion, makes four-wheel brake operation more efficient, gives easier steering and reduces unsprung weight.

Chassis lubrication—Alomite-Zerk pressure system.

Motor

Make and Model—Ford "A"
Four Cylinders—Bore 3 1/2"; Stroke 4 1/2"
Unit Construction
Pump and Thermo-Syphon Cooling
Pump, Splash and Gravity Lubrication

The New Ford Car

(Continued from Page 5)

veloping its maximum power at 2200 r. p. m. This is consistent with established Ford practice which always has aimed at securing a minimum amount of piston travel per mile of road travel, with resultant minimum of strain and wear on moving parts.

The motor is set in the frame at an angle of 34 deg. and practically a straight-line drive to the rear axle is thus secured. The nine plate multiple disc clutch comprises four driving and five driven discs which

operate without lubrication. A feature of the clutch is that on disengagement it immediately and completely neutralizes the driven shaft so that the clutch pedal is depressed without fear of clashing gears. Clutches of this type have hitherto been peculiar to high priced cars.

The transmission departs from conventional light car practice in the use of ball and roller bearings instead of bushings. These bearings make for more satisfactory operation, smoother performance and longer life. The steering gear also is unique in the light car field, being of the irreversible worm and sector type with the worm carried in ball bearings. Front and weight of the car also is carried on roller bearings which are placed on top of the spindle bolts, and the result of these refinements is unusual ease in steering.

Transverse semi-elliptic springing is used, and for it Ford engineers claim the following advantages:

that the springs contact with the frame at only one point and that in the centre line of the chassis with the result that the chassis is subjected to no twisting strains; that it permits the full torque tube drive; that it reduces unsprung weight to a minimum and improves riding qualities; that the springs have only their natural function of absorbing road shocks to perform; and that danger of uneven application of front wheel brakes is avoided because the front axle is held rigidly at right angles to the chassis centre line and there is no possibility of uneven tension upon brake rods. The brakes are of the special Ford design and operate on the inner surface of substantial steel drums. All brake parts are cast-iron plated as a precaution against rust and each brake is instantaneously adjustable through manipulation of a small adjusting stud on the exterior of each brake drum. Brake pedal or hand lever will apply all four brakes simultaneously. Sixty per cent of the braking effort is applied to the rear wheels and forty per cent to the front wheels.

The new car is completely equip-

ped with five steel spoke wheels, improved method of chassis and motor lubrication, four hydraulic shock absorbers, speedometer, wind shield wiper, rear view mirror, remote door latch controls. There are six body styles; Tudor, Fordor, Coupe, Sport Coupe, Phaeton and Sport Roadster. Each style will be available in an extensive range of optional color combinations.

Unusual performance unprecedented in the light car field is claimed for the new Ford Model "A". It will attain a speed in excess of 60 miles per hour and may be held at that speed for long periods without discomfort to passenger or injury to the mechanism. It accelerates at a terrific pace and seems literally to leap away when the clutch is engaged. It has been driven at more than 40 miles per hour in intermediate gear. It manoeuvres with great ease, negotiates the roughest roads at speed without undue body motion, holds on a sharp unbanked curve at 45 miles per hour and has a turning radius of only 17 feet.

Production at present is centering upon the Tudor model. Other models including the Model "AA" Truck and Light Delivery Models will be available as the task of swinging over the huge factory at Ford, Ontario, is completed.

Here and There

Reports received from various guides in New Brunswick state that partridges have increased; moose are plentiful and deer greater in numbers than last year. On the Little Tobique River beaver are more numerous this year, but not elsewhere.

Alberta's wheat crop is so good that D. C. Coleman, Vice-President of Western Lines of the Canadian Pacific Railway, believes it will reach 180,000,000 bushels. The record crop so far is 166,000,000 bushels, produced in 1923.

Roadbank Price—71115, an Ayre-shire cow owned by George Pearson & Sons, of Waverford, Ontario, has just secured a Canadian and a world record for milk production, having given 23,641 lbs. of milk, 978 lbs. fat with average test of 4.14 per cent. Her five years' milking record is 87,843 lbs. milk, 3,633 lbs. fat.

Aviation history is being made nowadays. Canadian Air Board officials announce that airmen have been received from 15 cities in Canada desirous of forming flying clubs. At the same time Sir Philip Sassoon, Under-Secretary for Air in the British Government, reports that the first of the two huge 5,000,000 cubic feet dirigibles being built in England for inter-imperial commercial communication will be completed in about two years and that the maiden trip will likely be to Canada.

Nova Scotia has won the Agent-General's Challenge Cup at the Imperial Fruit Show held in Manchester, according to official advice by cable. Nova Scotia obtained the greatest number of points in the overseas section of the show, the basis for award being 4 points for each first prize, 3 for each second, 2 for each third and 1 for each entry receiving 75 per cent. Nova Scotia had 48 entries and won 7 firsts, 8 seconds and 6 thirds.

The establishment of a game sanctuary in western Nova Scotia was announced recently by W. L. Hall, Attorney-General of the Province. The reserve covers an area of approximately 200 square miles, and contains fine scenery, majestic rivers and forests and lakes in which trout and other fish are sure to thrive. The new sanctuary will take in the chief waterways of Lake Rossignol, Shelburne River, Jordan, Sixth and Fifth Lakes.

According to the latest Bulletin of the Bureau of Agricultural Economics, Washington, Canada ranks next to British India as to tobacco produced in the British Empire. Stimulated by the preference granted Empire-grown tobaccos in the British market since September 1st, 1919, says the report, "the production of tobacco in Canada has increased from 14,232,000 pounds in 1918 to 26,854,000 in 1926; Ontario furnishing about 75 per cent. of the product and Quebec most of the remainder."

Gasoline has done all the damage possible to the horse industry in Canada, according to W. J. McCallum, horse importer of Brampton and Regina, who arrived in Canada recently on board the C. P. liner "Metagama." Mr. McCallum brought with him over 100 champion stallions which he purchased throughout the British Isles, France and Belgium during the summer months. He will take the valuable shipment west this winter and will dispose of them throughout the prairie provinces. Mr. McCallum is optimistic regarding the future of the horse industry in Canada and states that more pure-bred animals are needed on this side of the water.

ABSOLUTE CLEAN OUT SELL OUT GET OUT POSITIVELY QUITTING

POWELL QUITTING BUSINESS SALE OF JEWELRY

DIAMONDS

WATCHES

I AM QUITTING FOREVER

I have turned my stock over to M. W. France & Co. of Spokane. They are instructed to make a quick disposal of everything. I do hope my many friends and customers will take advantage of my great loss and share in the bargains that will be offered at this gigantic disposal sale, and think, yes think, two times, it is just at a time, Christmas time, when you are contemplating your buying of such articles as we are offering you at unheard of prices.

Sincerely,
G. R. POWELL

**\$9500 Stock of High Grade Jewelry
Thrown to the Public in this
GIGANTIC DISPOSAL SALE**

**STORE CLOSED TIGHT ALL DAY ON FRIDAY
SALE BEGINS**

SAT., DEC. 10

at 9.30 o'clock a.m.

And Continues Until the Entire Stock is Disposed of

\$100.00 - FREE - \$100.00

We will give absolutely free to the first 250 adults in the store on Saturday morning a Merchandise Certificate good for 15c, 25c, 50c or \$1.00. You don't have to spend another cent if you don't want to. Line up and get a Free Certificate.

**This entire stock of Jewelry must be sold. Store
Fixtures—absolutely everything must be sold.**

We will make an extra concession to anyone interested in buying lots during this sale. It all must go regardless of price. Come—buy your Christmas Gifts now and save money.

Come to this store—see for yourself the many bargains in watches, rings, silver pieces, trays, dishes, pens, pencils, community spoons, meat forks, gravy ladles, chests of silverware, and hundreds of other bargains, subject to stock on hand. Everything must be sold—everything goes. To dispose of this high grade stock of jewelry in a hurry, its up to us, the crash is on, prices have been slashed and slaughtered. This will be beyond a doubt, the greatest chance you have ever had to do your Christmas buying. Come prepared to share in the many bargains that will be offered. Again we say, come.

Teaching Hatred Of Britain

Reads Spending Unlimited Funds In China Says General Sutton

"The whole of Mongolia is now in the hands of the Bolsheviks and they are sending hundreds of agents supplied with unlimited funds into Southern China with the idea of raising hatred against Great Britain," General F. A. Sutton, picturesque soldier of fortune and promoter, told the Ottawa branch of the Engineering Institute of Canada.

The man, who for six years was military adviser to Marshal Cheng Tso-Lin, head of the Peking government, declared that he had seen orders from the Moscow government, "directly advising, wholesale, to endeavor to stir up anti-British feeling."

According to General Sutton, 99 per cent. of the people of China were hopelessly poverty stricken. The urgent necessity of getting something to eat was the main consideration of the bulk of the population.

General Sutton thought the main source of trouble in China as it affected Great Britain was in Britain's lack of a strong policy. To a great degree the fact that practically the whole of Southern China was now pro-Bolshevik came as a result of this policy, he declared.

New Ruling For Settlers

Will Receive Medical Certificates Before Leaving For Canada

Interviewed in London on the recently announced initiative of the Canadian Government to establish in Great Britain, Canadian medical officers for examination of intending settlers for the Dominion, Sir George McLaren Brown, Vancouver general manager, Canadian Pacific Railway, said that the new plan is being put into effect with the object of averting possible expense and waste of time to the migrant and of avoiding the possibility of rejection on arrival in Canada through failure to comply with Canadian medical regulations.

Under the new plan all who desire to settle in Canada will be medically examined free of charge before leaving their homes. This examination will be final and there will be no further examination to undergo on arrival at a Canadian port. It will also avert possibility of indefinite migrant waiting up their positions or selling their business until they have passed the Canadian doctor.

Question Of Naval Limitation Solved

Further Conference May Be Called Within Two Years

No negotiations in connection with a further conference on the question of naval limitation have been begun as yet, but they are being contemplated for the immediate future, the Canadian Press learns. However, there is a definite feeling in British diplomatic circles that another conference, say in 1929, might produce valuable results inasmuch as it might considerably infuse the cruiser program which otherwise would be in the process of being carried out two years later, when the Washington conference agreement will be due for review.

The decision not to proceed with two of the three cruisers which were to have been laid down this fiscal year is regarded as a gesture of the British Government to preserve a lively interest in the proposals for arms limitation.

Predicts Dominion

Rule For Scotland

Is Following Lead Of Free State Says Irish Nationalist

Dominion home rule for Scotland within ten years has been predicted by Jeremiah MacVegh, leading Irish Nationalist and former member of Parliament.

"The nationalist spirit is sweeping Scotland as it swept Ireland," said MacVegh, "and I am certain that within five years Scotland will have the same form of government as has the Free State."

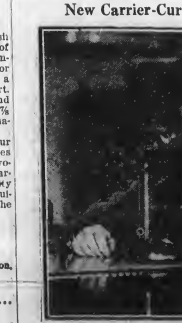

"Scottish freedom will not be won by the name means as was Irish freedom, but will come automatically and peacefully as the demand grows for freedom from the English Parliament."

New Carrier-Current System Inaugurated

New carrier-current, system of combining commercial and railway telephone communication between Montreal, Toronto and Winnipeg, was given a remarkable demonstration in its inauguration recently by the C.N.R. Here A. E. Warren, general manager of the central region of the National Railway, Toronto, is shown talking to Winnipeg, while a telegraph message is being simultaneously transmitted. The service, it is estimated, will result in saving the company of about \$1,000,000, and is the equivalent of 24,500 miles of new lines.

Why Chinese Are Fighting

Brigand War Lords Robbing People For Their Own Enrichment

A writer in the press says that "If the Chinese know what they are fighting about it certainly gives them the most decided advantage over the rest of the world."

But if the rest of the world does not know, it is not because the rest of the world does not want to know, or because the newspapers of the world will not make the facts of the case known?

The bread outline of the trouble in China is that the country is being misgoverned and plundered by brigand war lords, who borrow money from the western nations, grant concessions to these foreign powers, and rob the Chinese for their own enrichment and to pay interest on their foreign borrowings. These war lords fight each other if they have no other fighting to do, but for two or three years they have had plenty of fighting offered them by a civilian uprising against war-lordism, yoked as it is with foreign aggression.

The true interest of the western nations will eventually be found to be in China as everywhere else. In the world, with the cause of civil and constitutional government as against rule by war lords and the sword, duty, owing to bad management, the foreign powers have allowed themselves to be aligned on the side of the stiffers of Chinese freedom rather than on the side of those who struggle for it.

Remarkable Story

From London Hospital

How Messenger Boy Earned Money

For Sir George's Operation
When Prince Henry recently visited the Royal National Orthopedic Hospital in London, he heard from the nurses the story of a remarkable performance by a London messenger boy. It affected the cure of his baby sister, who had been a cripple from birth.

The boy, Alfred Garcia, then aged 12, heard his parents say that an operation which might cure his sister was too costly for their limited means. This was in 1922.

Learning that there was a circus in Sheffield where a lion-tamer offered \$1,250 to any one who would dare to venture into the lion's cage, Arthur Garcia, in the moment of their triumph—George Adam Smith.

Risks Of Ancient Battle

Found Where Standard Was Planted At Battle Of Senlac

A few years ago, four miles from the spot on which King Harold planted his standard at the Battle of Senlac, near Hastings, England, a copper drum was dug up containing a leather bag with 2,000 silver pennies of Edward the Confessor's reign, believed to have been part of Harold's military chest.

Now, within a few yards of where the standard stood, Battle Road as it is called, have unearthed an ancient battleaxe, some horsebones of ancient palfrey, and a few bones.

When ghosts walk they probably enter houses with the aid of skeleton keys.
Winning candidates always say that it was a case of the office seeking the man.

SUNDAY SCHOOL LESSON

DECEMBER 11

ISAIAH COUNSELS RULERS

Golden Text: "Thou wilt keep him in perfect peace, whose mind is stayed on Thee; because he trusteth in Thee."—Isaiah 26:3.

Lesson: Isaiah, Chapters 7, 21, 36 and 37.

Devotional Reading: Psalm 21: 1-7.

Explanations and Comments.

1. King Hezekiah Appeals To Isaiah To Pray To Jehovah For Deliverance From Sennacherib, verses 1-4. II. The Prophet's Answer, verses 5-7. This shall say ye say to your master: Isaiah made answer to the messengers from King Hezekiah, "Thus saith Jehovah, Be not afraid of the words that thou hast heard, where-with the servants of the King of Assyria have blasphemed me." Read the words in the preceding chapter of Isaiah. "Behold," continued Isaiah, "I will send one before thee, and he shall bear tidings, and shall return into his own land, and I will cause him to fall there by the sword in his own land. The spirit" was of that of alarm. What the "tidings" were is uncertain. To quote G. W. Hinde: "In chapters 36 and 37 are a unity, 'tidings' must refer to the news of the approach of Tithan's army. If verses 17 here are independent of verses 8-36, the rumor probably related to the tidings from some of the cities in Judah, where, after expelling Merodach-baladan in 702, he had set up a garrison, who shortly afterwards revolted and against whom he directed a campaign in 701. In the combination of the narrative in Isaiah with the fulfillment of the prediction about the rumor may have been lost, but the return of Sennacherib to his own land is described in verses 37, 38, which form the sequel of this account."

Isaiah's world faith in Zion's inviolability does not blind him to the operations of the "king of the north" (Syria), it is in one of his passages of warmest exaltation about Zion (10:27) that he speaks of the easy advances of the Assyrians to her walls. He and other prophets frequently recognized how the military powers will overrun Judah; and when they expect Jerusalem from the consequences, it is because of her national strength, but because of her faith in the direct intervention of God Himself. So at last, in the face of his baby sister, who had been a cripple from birth, the boy, Alfred Garcia, then aged 12, heard his parents say that an operation which might cure his sister was too costly for their limited means. This was in 1922.

Hopes League Can Avert War

Former French Delegate Says 1935 Will Be Crucial Year

The United States will not be on the same side as Great Britain in another European war, Henri de Jouvenel, former French delegate to the League of Nations, predicted in a letter read at the International War Hunger Conference at London.

M. de Jouvenel, who recently resigned his League post as a protest against the policies pursued at Geneva, was to have addressed the conference, but sent a message which was read instead.

The French statesman pointed to the holding up of the recent naval conference and said:

"Naval rivalry brings in its train concurrently with the growth of land armaments, rivalry of great states which are potential foes."

He predicted 1935 as a crucial year, until which the peace structure would hold good, but expressed the hope that by that time the League of Nations would have gained the authority necessary to prevent the recurrence of war.

Metal Light As Aluminum

Important Discovery Made By German Professor

A new alloy said to be three times as strong as iron, and as light as aluminum, has been brought to this country by its inventor, Dr. Max Wurmbach professor of metallurgy at the University of Munich.

The alloy, "neoneum," Dr. Wurmbach claims, is the most important discovery of the kind since the invention of duralumin in 1907. A plane made of noneum, he said, would be so light that it could be picked up by a small boy.

Growing Trees From Seed
The Land Department of British Columbia has leased a plot near Victoria city where forest trees will be grown from seeds, and planted artificially to renew timber supplies for a future generation. The tiny trees will then be planted in various government timber reserves within the province.

An automatic distress signal broadcaster for ships and aeroplanes has been invented. It transmits SOS signals, the ship's call letters and the location.

Watches and clocks made in this country in the past year had a value of nearly \$2,000,000, the production breaking all records.

Cold Relieved or Money Back

Everywhere men, women and children are finding instant relief from Coughs and Colds by using BUCKLEY'S Mixture. Everywhere druggists are selling "Buckley's" under similar names. It is a fact that it has never been so successful as it is now. It is a fact that it has never been so successful as it is now.

W. K. Buckley, Limited, 102 Nassau St., New York City. BUCKLEY'S Mixture. Act like a flash—A single cup proves it.

Scheme Is Proving Success

Socialistic Rule Has Passed Experimental Stage in Vienna

The city of Vienna has just entered upon its tenth year under Socialistic rule. It is the only great city of millions of inhabitants which has been governed by a purely Socialist majority for so long a time—the only place where Socialistic experiments have had a chance to be conducted upon to grandiose a scale and thereby develop beyond the experimental stage into what, from certain definite points of view, must be regarded as success.

Probably no city outside of Russia has had more hostile criticism than Vienna during the past decade. It has been denounced as Bolshevism; it has been ruined by its rulers. Yet today students of municipal government have had a chance to be conducted upon to grandiose a scale and thereby develop beyond the experimental stage into what, from certain definite points of view, must be regarded as success.

The first striking fact is that Red Vienna is as far removed from Red Russia as the poles. In Vienna, in fact, nothing is forbidden in the social order, provided one is able to pay. It all depends upon that. On the other hand, the doctrine of Marx is definite—human happiness is due to every one and for that every one shall pay. Therefore, one may retain 40 servants if he deems that number necessary—and pay a tax sufficient to maintain an entire ward in the children's hospital for a year. But upon the theory that human service is necessary, servant No. 1 is not considered a taxable luxury.

One may own one automobile or twenty, providing one pays \$20 per horsepower annually. One may attend cabarets all night, provided he is willing to pay the music tax. French champagne may be imported to the palace's desire provided the purse can stand the strain of the high tax that goes to the municipal building fund.

One may ride a horse for pleasure and pay an annual sum of \$10, or may keep a horse for commerce and pay a tax of only \$5, or may own a horse to till the soil and pay no taxes whatever.

Undoubtedly in some ways—perhaps in many ways—the new regime is still groping with difficulty. But, as the city fathers maintain, it is only only years since the revolution and only seven years since the inhabitants have been able to get good square meals, therefore more time is needed to solve all problems.

Laundry Run By Peers

Solicits Patronage From Society People Residing in Mayfair

Peddle telephones are ringing early these Monday mornings in Mayfair and a woman's voice says firmly, "My dear, I want your set of 12, or may keep a horse for commerce and pay a tax of only \$5, or may own a horse to till the soil and pay no taxes whatever."

Undoubtedly in some ways—perhaps in many ways—the new regime is still groping with difficulty. But, as the city fathers maintain, it is only only years since the revolution and only seven years since the inhabitants have been able to get good square meals, therefore more time is needed to solve all problems.

She takes the method of coaxing her friends to sample her venture, assuring them that her laundry is one place where buckles won't come off white waistcoats and where there will be no laundry marks splashing handkerchiefs. Her husband, who is heir to the earldom of Tankerville, is London's pioneer aerial taxicab driver.

The government railway administration of India plans to construct 200 miles of new railway each year, beginning at once.

The Arctic tern, which flies from the Arctic zone to the Antarctic in its annual migration, covers a greater distance than any other bird.

"What? Two francs for having listened to the jokes of the proprietor?" "Yes. All amusements are paid for here!"

"Good. Then I will charge your proprietor two francs for laughing at me when I told you the stars were dead."—Pages Gales, Yverdon.

Salemman For Face Cream

Learns a Good Lesson

Mr. Vandivier, New York, writes: "I was a salesman of creams for healing pimples, blemishes, etc., but when my face broke out with blotches, pimples and blackheads, I tried one salve after another with no results. Finally I decided I would have to get at the cause of the condition. I was amazed to find that within a few days after taking your vegetable laxative pills for constipation my skin took on a new healthy look."

CARTER'S LITTLE LIVER PILLS

WORLD HAPPENINGS BRIEFLY TOLD

An extradition treaty between the United States and Poland has been signed at Warsaw after several years of negotiations.

Canada's trade with United States for the twelve months period ending October 31, was \$1,180,000,000 and exceeded the entire trade with the British Empire by \$457,000,000.

Mrs. Frances Wilson Grayson announced on her return from Tampa that a third attempt to fly across the Atlantic plane "Dawn" probably will be made during the winter months.

Sir Harry Lauder has received the freedom of his native city. The ceremony established a precedent, since he was the first professed comedian enrolled on the honor roll of Scotland's capital.

A train of 31 cars carried the first shipment of grain to the Halifax elevator this year, the shipment containing 61,000 bushels of rye, said to be part of one million bushels to be handled at that port.

George Sawyer, a member of the St. Norw. Lake hunting party of Halibut, Ont., was fortunate in securing a freak of the deer family in the form of a white buck. It was exceptionally large, weighing over 300 pounds.

The post of gold commissioner in the Yukon territory, which is now vacant, will, it is understood, likely be filled by a promotion from within the civil service. The Yukon is administered by the department of the interior at a cost of \$150,000.

In the last year, 17 Catholic priests have been executed in Mexico, W. F. Montavon, of the National Catholic Welfare Conference of Washington, told members of the Mowday Club, an organization of social workers in New York.

More than half a million aliens were admitted to the United States during the 1927 fiscal year, and the number was considerably greater than during the previous year. The figures were 528,003 admissions in 1927, and 485,106 admissions in 1926.

Ronald Martland, son of John Martland, Edmonton's city architect, has been selected as Alberta's Rhodes scholar for 1928, and will proceed to Oxford next autumn. This is the 13th selection made at the University of Alberta.

New Distress Call

For Radio Telephony

"May Day" Is Equivalent To SOS In Telegraphy

A distress call for use in radio telephony has been devised by the International Radio Conference and has been incorporated in the new international wireless convention.

The new call for help is "May Day" to be spoken through the broadcasting apparatus. This would be followed immediately as in the case of a SOS by details as to the location of the origin of the distress call.

"May Day" is the phonetic spelling of the French word "maler," meaning "help me."

High and low tides may be predicted two years in advance for any port in the world by a recent calculation invention, consisting of 15,000 parts.

Rheumatic Pains

Gentle massage with Minard's will work out stiffness and drive away pain.

Personal and Local

Mr. Robert Young was a visitor to Calgary over the week-end on business.

The next meeting of the Crown Meat Pans Ministerial Association will be held at Bellevue on Jan. 5.

See Pola Negri in "Women on Trial" at the Palace on Friday and Saturday. A splendid picture that you'll enjoy. Also the educational and interesting Fox Weekly News film on Saturday night.

Read the advts. of Coleman stores to help you in Christmas shopping. Their aim is to serve you and some exceptionally good values in all lines may be obtained.

Your friends would appreciate the courtesy of having their visit recorded in the local newspaper, and we would appreciate any new items of personal and local interest.

Miss Florence Cox, graduate of the Jean Carroll School of Beauty Culture, Calgary, will do marcelling, etc., in the evening and on Saturdays by appointment at Mrs. W. G. Fraser's. Phone 2951.

Coleman Literary Society held their first literary entertainment on Friday afternoon in the High school. For the first meeting it was a great success. The students of the different grades put on the program. It is hoped to have more details of the next program.

The prize winners at the Rebekah Lodge social on Saturday evening last were Mrs. Campbell of Bellevue and Mrs. A. Muir (ladies first and second) and Mr. Neil McKinnon and Mr. Barloch (gentle) while the floating prizes were won by Mrs. Olson and Mr. R. Evans.

The merchant who is enthusiastic in his store and the service he can give to the public is generally a good advertiser, and does not hide his light under a bushel. More over he attracts business by his cheerful attitude and makes people feel it a pleasure to do business at his store.

An easy way for somebody to win a turkey is by attending the St. Alban's whist drive on Saturday evening, Dec. 10, at the parish hall, when turkeys will take the place of the usual prizes. Members are asked to bring a friend, and a general invitation is extended to the people of Coleman.

Miss Peggy Fairfull was presented on Friday evening by Mrs. A. W. H. McLeod, on behalf of the Women's Institute, with the gold medal for obtaining the highest number of marks in last year's Grade VIII exams. The presentation was made during the interval of the picture show at the Palace.

St. Alban's whist drive winners last Saturday were Mrs. A. F. Short and Mrs. J. C. Lang, and the gentle Mr. W. Nelson and Mr. J. Derbyshire.
